

Specially geared for younger children this roadshow explains where our food comes from and what harvest time is all about.

Using songs, stories and hands on play the children get a rounded knowledge of the importance of caring about their food from seed to plate. They will learn how the farmer looks after both animals and plants to provide them with healthy and nutritious food for life.

There is the opportunity to hold our chicks and experience the sights and smells of real farm animals in the classroom.

Available October only

This road show has been developed for children from P3 up.

At Streamvale, milk is our business, but how does it happen? Our detailed Powerpoint Show gives children a real glimpse behind the scenes and the opportunity to learn about farming and where their food comes from.

Of course, we'll bring our chicks to hold and Daddy rooster will be right in there in your classroom providing the authentic farm sights smells and sounds. With our new stories & songs, we have everything for teachers and children to enjoy, experience and learn.

Available October only
